

## SEEKING GLOBAL JUSTICE BAHÁ'Í VISIONS FOR LEGAL REFORM

by *Brian D. Lepard*

The global legal order today exists in a state of turmoil. It has proven incapable of effectively addressing the social problems ailing humanity and securing justice for everyone. This disruption afflicts both national legal systems and the international legal order as a whole.

According to the Bahá'í teachings, the legal order of the world can only be rescued if it is transformed to reflect divinely-revealed principles, particularly those teachings of global unity and oneness brought by the Revelation of Bahá'u'lláh (1817-1892), the Prophet and Founder of the Bahá'í Faith.

This book investigates how that transformation can be brought about in various domains of law by reviewing the key features and history of the current global legal order and the many existing deficiencies of that order, weighing current debates on how to address them, and determining the potential for implementing reforms based on Bahá'í principles.
